Analyzing and Visualizing WeRateDogs
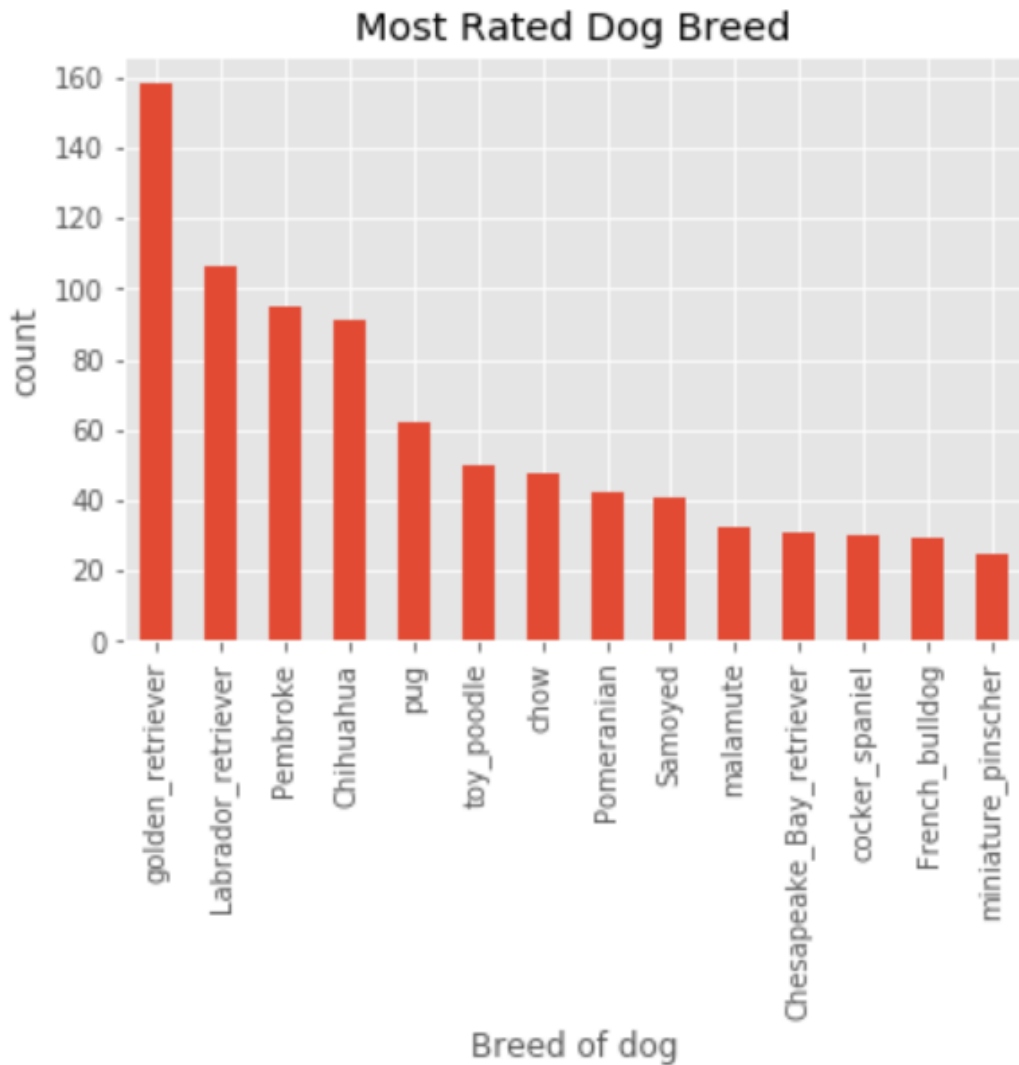

Introduction:

Most probably you all are heard about one of the most famous meme in 2016 "They are good dogs Brents" and the twitter account WeRateDogs, here I can show some analysis I done on WeRateDogs.

WeRateDogs give Ratings to dogs , basically we give rating between 1 to 10 . however WeRateDogs disagrees , they give ratings more than 10.
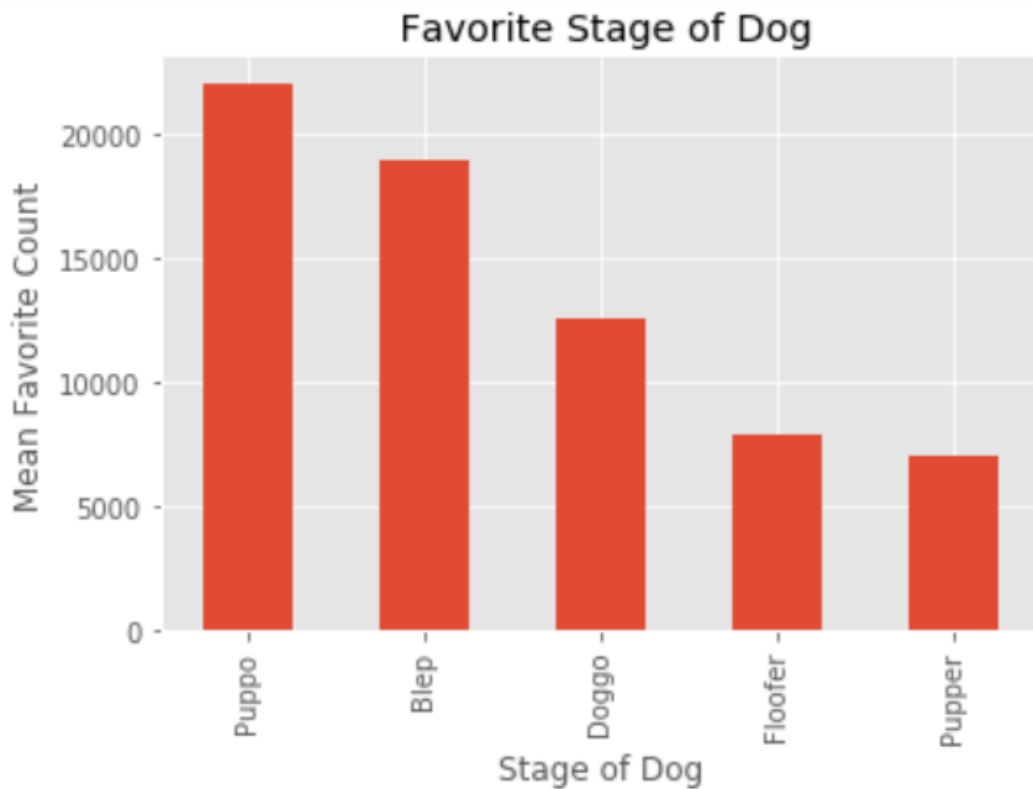

So, by this ratig and data we are going to analyze some facts and figures. Here's some insight which I want to show you.
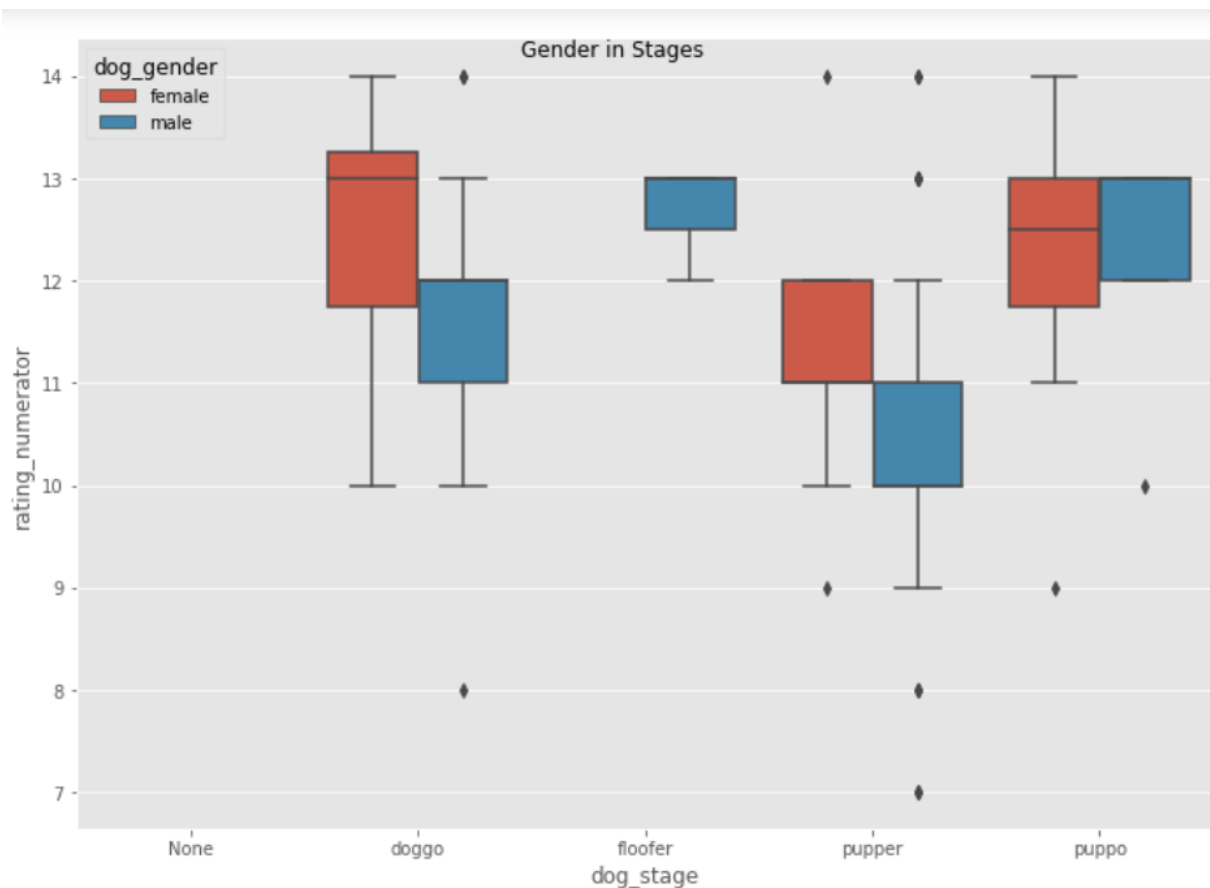

Most Rated Dog Breed

So , we can easily see by the chart that **Golden Retriever** has highest rated dog breed on **WeRateDogs** twitter account. People are likely to purchase the dog which are of golden_retriever breed. Because his rating is high.

Most favorite Dog Stage

Favorite Stage of Dog

*As we clearly see from the chart that **puppo** is favorite dog stage among all. People love this stage. Puppo is stage of **teenager dog** which people loves the most.*

Gender of dog in different Stages

So this is a gender ratio of dogs in different Stages.

So, we finally conclude that…..

Golden Retriever is a favorite Dog Breed and Puppo is favourite dog stage .

So , This Article suggest that people should buy a puppo dog of golden Retriver Breed , beacuse it has high ratings and reviews.
